

AI IN HEALTHCARE VIRTUAL Summit 2026

Program

Where Artificial Intelligence Meets
the Future of Healthcare

 November 30, 2026

 Eastern Time
(US & Canada)

 Online

Monday, Nov 30, 2026

08:50–09:00 Zoom Joining & Welcome Remarks

Session – I

Generative AI for Healthcare

08:00 – 08:30

AI-Ready Isn't Human-Ready: The Missing Piece of Healthcare Transformation

Sheena Yap Chan

Founder, The Tao of Self-Confidence

08:30– 09:00

Agentic AI in Healthcare: From Copilots to Trusted Autonomous Systems

Rahul Paith

Chief Operating Officer of Global HealthX

09:00–09:30

Beyond the Hype: The Practical Impact of AI on Healthcare

Jonathan Rankin

Point-of-Care Specialist, Patient Focus Africa

09:30–10:00

Beyond the AI Pilot: Building an AI-Ready Practice Without a Data Science Team

Nicole Guevara

Founder, Breakaway MD LLC

10:00–10:15

Break

10:15–10:45

The Trusted Voice: Reimagining Patient Communication for Children Before They Reach Hospital

Elaine Cowley

Co-Founder & Chief Growth Officer of Sound AiSleep

Session – II

Precision Medicine

10:45–11:15

Integrating AI into Haemodialysis Workflow: From Risk Prediction to Clinical Action

Doyoung Kim

Co-Founder & CEO Nexev Pty Ltd

11:15–11:45

When AI Listens to Patients: Building Trustworthy AI for Clinical Documentation

Nelly Elsayed

Associate Professor, University of Cincinnati Founder and Leader, Applied Machine Learning and Intelligence (AMLI) Lab

11:45–12:15

When AI Starts Listening: A More Measurable Future for Women's Health

Franziska Rössler

Founder and CEO of Mestrualia

Session – III

AI in Clinical Diagnostics

12:15–12:45

AI in Diagnostics: Redefining Accuracy, Access and Health System Resilience

Sarah Cohen

Strategic Executive Officer (SALDA) / Consultant

12:45–01:15

Beyond the Dashboard: How AI Is Changing the Way We Understand Laboratory Operations

Fred Klören

Associate Director at LTS Global

01:15–02:15

Break

02:15–02:45

From 172 Hours to 2: What Governance-First AI Deployment Actually Looks Like in a Hospital

Howard Rosen

CEO, Nova Insights Corp; Senior Fellow Columbia University HitLAB

Session – IV

Intelligent Hospitals

02:15–02:45

When AI Works but Healthcare Doesn't From optimisation to coherence in complex healthcare systems

Caroline Maslo

Healthcare Governance Consultant

03:15–03:45

From Legacy Clinical Data to AI: Building the Interoperability Layer for the Future of Healthcare

Richard Wang

CTO of Linkiir

Session – V

AI for Drug Discovery

03:45–04:15

Who Owns the Decision When AI Is Involved? Human Oversight and Accountability in Biotech and Biopharma

Jacqueline Surls

Founder & CEO · Notiva Labs

04:30

Closing Remarks
